+ Cool, Affordable & Personal

izzy

Always cool and all about the people

As the namesake daughter of the izzy+ brand, izzy perfectly expresses the family mantra—cool, affordable, personal, and functional furniture that supports how people really work today. Because we sure don't work like we used to. We collaborate and telecommute, always on the move with our technology and our ideas. izzy's tables, chairs, and storage are happy to adapt and accommodate.

When you bring izzy's sibling brands into the mix, you have even more options and flexibility, for every type of workspace—from open and private offices to cafés, conference, and learning spaces. 3-2-1...Adapt!
